Support Hours: Monday – Friday, 9 AM to 6 PM
(excluding public holidays)

Developed specially for preschool centers, BridgED is an online system capable of tracking attendance, finances, logs and much more!

FUNCTIONALITIES

■ Customizable Interface

It is easy to customize the interface of BridgED for different user groups. As such, the interface of BridgED differs from user to user. Want to give editing rights to one particular teacher? No problem!

■ Attendance Taking

BridgED keeps track of both student and staff attendance. Additionally, temperature and any remarks is recorded. All these information can be compiled into a daily, weekly or monthly report for analysis.

■ Communication Platform

BridgED provides the ideal platform for reaching out to parents. BridgED is able to blast newsletters, compile RSVPs for an event and even generate online surveys!

■ E-portfolio

BridgED's E-portfolio module can generate activity reports as well as checklist-based progress reports. Parents will appreciate being informed of their child's development.

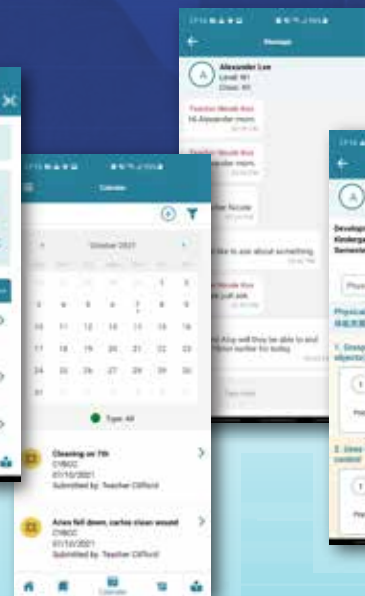

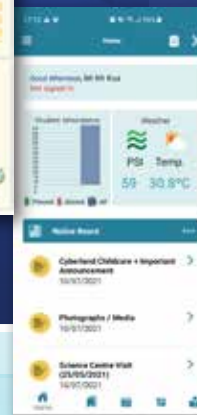

■ Finance

BridgED has a finance module catered specially for preschools. Invoices and Receipts can be generated with a click of a button. BridgED can even send them directly to the parents via email. BridgED is effective in tracking both payments and subsidies/discounts. Handling preschool finances has never been easier!

■ Infant Care Module

BridgED Infant Care Module will give parents a peace of mind. Parents can access the app to view the menu and schedule. They can also include their instructions eg special feeding and napping schedule. Administering of medications will require 2 teachers to be present and digital sign offs on the app are required. Centres on the other hand can communicate with parents via this module e.g. items that need to be replenished all within one app.

■ E-Form Facility

BridgED E-Form provides the facility for parents to fill in ECDA Form 1, Form 3, Form 3 and Declaration Form remotely. Parents' signatures can be digitised and recognised. Completed form can then be printed out for archived by the centre.
